Re: Conditional Use Permit Application, Smasal Pit

Dear Evan:

Please find herein an application by American Asphalt of Wisconsin for a Conditional Use Permit for a temporary asphalt plant at the Smasal Pit in the Town of Fifield. We plan to do asphalt mix production at this location for Price County Highway Department along with other projects in the area. We would like to renew our permit that expired on December 31, 2015 for another 3 year period.

A portable drum mix asphalt plant will be used to provide hot mix asphalt for the projects. The normal plant operating hours are 6:00 AM to 7:00 PM, Monday through Friday and depending on scheduling and weather conditions to 4:00 PM on Saturday.

I am attaching a map and a plant layout diagram for your review. The plant layout would encompass approximately 4 acres, including aggregate stockpiles.

American Asphalt provides portable sanitary facilities and dumpsters for solid waste disposal at each location. Both are serviced as needed for the duration of the project.

All company asphalt plants are tested for air quality compliance biannually and meet all requirements of the Wisconsin Department of Natural Resources. In a program sponsored by the Wisconsin Department of Natural Resources and the Wisconsin Asphalt Paving Association, American Asphalt is a recipient of the Hot Mix Asphalt Environmental Leadership Award for demonstrating environmental excellence in their asphalt plant operations.

If you have any questions, please contact me.

Sincerely,

American Asphalt of Wisconsin
