# **COUNTY HEALTH RANKINGS**

The County Health Rankings, published annually in the State of Wisconsin, explore the factors that influence health. These factors can play a role in how well we live and how long we live. The County Health Rankings Model provides an overview of how these factors work together and helps us understand where to take action to eliminate barriers that impact the health of our community. Take a moment to watch this short video clip to learn more about the <u>Rankings Model</u>.

# Price County ranked #49 of the 72 Wisconsin Counties.

Here is a further break down of the health outcomes and health factors present in our community:

**Health Outcomes**: how healthy a county is right now, in terms of length of life and quality of life.
